

BAY PALMS GOLF COURSE

DECEMBER 2024

COURSE NEWS

Good news! We're starting to open the temporary greens on the North Course that were redone over the summer. The putting green will be first. Over the next month we will be gradually opening the rest, as some are taking more time to mature. We have overseeded, and #13 will be the only one to remain a temporary green. That makeover did not take, and the company that we contracted to accomplish the job will be back in the Spring to give it another go.

Kudos again go out to Daniel G, as he continues to work on the irrigation boxes that were damaged from the storms. Most are back up and working. The box that controls the #'s 6 & 14 holes on the South requires a major rebuild. Next time you are on #6 look at the box on the back left side of the green.

DRIVING RANGE

First, thanks for the patience with the range ball distribution process. You may have noticed that the shed is back to at least having 4 walls and little sign of damage. I have completed the request to replace the ball machine and washer, along with the hydration stations. We are just waiting for the process to clear the wickets and receive the approval to purchase. My guess would be by the end of the month.

PRO SHOP

New merchandise is starting to trickle in for the season. Come check out the newest items. There will be a holiday sale starting 15 December.

PASSPORT PROMOTION

The 6 FSS has a new promotional program to highlight MWR activities on MacDill. Ask us about "The Passport" and stop by the pro shop to pick one up. Visit macdillfss.com for rules and eligibility.
