These protected areas offer an opportunity to see turtles, spotted eagle rays, moray eels and a variety of different fish. These special reefs are part of the 3rd largest living reef system in the world and the ONLY living coral reef in the US. The boat stops at two different locations on the reef. Each stop is determined by the captain based on the day's conditions. If you're an avid lover of the sea and a snorkeler this trip is for you. Price includes mask, snorkel, reef safe sunscreen and snorkel vest. Participants must be able to swim in order to participate in this activity and must have the ability exit and enter the water without assistance.
